Invitation
For the Presentation on
‘Growth Management Framework for Village Settlements within Auroville Green Belt’

15th December, Friday, SAIIER Conference Hall

4:30 pm
light refreshments

4:45 pm – 5:45 pm
Presentation & Q&A

This work offering, done in collaboration with many diverse stakeholders in Auroville & around, is part of learning exchange between Auroville & post graduate planning students from Queens University, Canada on a topic of critical importance to Auroville.

Host & Studio Coordinator
Lalit  lalit@auroville.org.in

Auroville Integral Sustainability Institute

The Green belt of Auroville Master Plan has 6 villages which all together have 6 times more population that of Auroville & have relatively higher growth rate due to wide ranging work opportunities, primarily created & stimulated by Auroville activities. There is also a good chance, as the image shows, that the most of western Green Belt turns into a continuous ‘developed belt’ in near future. It is high time that Auroville works more proactively & inclusively, to have a roadmap towards ‘harmonious co-existing model’ & acts on it.

Towards a learning society
